Subject: Access to NMP data from publications referenced in draft risk evaluation

Ana,

On behalf of the NMP Producers Group, I am requesting access to the raw data for two publications that are referenced in the draft EPA risk evaluation for NMP. These are the 2002 and 2003 Saillenfait studies listed below:

- Saillenfait, AM; Gallissot, F; Langonné, I; Sabaté, JP. (2002). Developmental toxicity of N-methyl-2-7256 pyrrolidone administered orally to rats. Food Chem Toxicol 40: 1705-1712. 7257
- Saillenfait, AM; Gallissot, F; Morel, G. (2003). Developmental toxicity of N-methyl-2-pyrrolidone in 7259 rats following inhalation exposure. Food Chem Toxicol 41: 583-588. 7260

I recognize the two items listed are publications but based on the analysis conducted by EPA in its draft risk evaluation, we believe EPA has the raw data from these two study publications.
